Physical Space Inventory

Fall, 2008

OVERVIEW

In 2008 the University of Arizona had four significant impacts on its physical space inventory & related programmatic space classifications both on-campus and off-campus.

The first event affecting on-campus space was the completion and occupancy of McClelland Park for the Norton School of Family and Consumer Sciences, which contributed 71,383 Gross Square Feet (GSF) or 47,388 Net Assignable Square Feet (NASF) to the University's main campus' growth.

The second event was the completion of the building renovations for the College of Law, which transferred 111,720 NASF from "conversion" space into both assignable and non-assignable room uses.

There were also a number of demolitions and lease terminations that moderated the growth created by the McClelland Park addition. The largest of the three leases terminated was the Art Graduate Studios, accounting for 18,719 GSF (17,732 NASF); the other two were the SBS Annex at 13,913 GSF (9,120 NASF) and Corbett lease on 210 E. 7th St at 8,535 GSF (6,822 NASF).

The third major change was the cumulative decrease of research space as a result of the reclassification steps taken during 2008, resulting in a loss of 295,877 NASF in that category. Key contributors to this loss were: the Biosphere 2 (-136,107 NASF) where previously assignable research space was reclassified as non-assignable, the Keating Building (-33,714 NASF) where the basement was reclassified as Service/Recharge Center, with the remainder of the loss attributed to the reclassification to Department Administration space for administrative professionals in research areas. These major changes were required after an external review of the space during the Facilities and Administrative Rate negotiations in 2008.

The fourth event occurred in the Biosphere 2 – off-campus space. Here, 41,121 square feet were reclassified from assignable to non-assignable after a careful review of the mechanical and support areas of this unique structure and to conform with the Postsecondary Education Facilities Inventory and Classification Manual (FICM): 2006 Edition.

The net result of these changes in 2008 was an increase of 31,092 GSF and a decrease of 52,152 NASF while supporting an increase of 991 student FTEs. In comparison to 2007, there were five major buildings and three major leases that created a growth of 557,207 NASF during that year.

UNIVERSITY OF ARIZONA
Summary of Physical Space Inventory by Location
Fall, 2008

	<u>Gross Square Feet</u>	<u>Net Assignable Square Feet</u>	<u>Net to Gross Ratio</u>
I. MAIN CAMPUS			
A. Non-Residential, Permanent	7,569,028	4,688,101	61.94%
B. Non-Residential, Temporary	239,876	153,566	64.02%
C. Residential, Permanent	1,466,838	933,513	63.64%
